April 2017

Steve Gebler built this plane the Granger Archaeopteryx. We don't know where he finds them and we don't know how he flies them but he does.

Statistics: Granger Archaeopteryx (1930) Semi-Tailless Monoplane. Parasol wing monoplane with functional all-flying full chord tip elevons.

Wing Span: 40"

Length: 19"

Weight: 1.17 lbs

Power System: 250 brushless w 10a ESC, 6x3 prop and 2S 550mah prop

Kitted/ARF by: Stevens Aeromodel

Mods to Kit/ARF: Custom pilot (Cap'n Geb) and graphics
